

Natural Bridge

We often see 4DW in Japan. But almost all of the Japanese don't want to get scratch and break their vehicle as they hardly ever go for a drive through rough terrain. Besides we don't think there is such a road in Japan.

This tour thrilled us more than riding a roller coaster-we love. We were afraid we could not triumph over such a rugged dirt road but then we were excited. And we could also see the beautiful mountain scenery which is very different from the coastal rainforest. The spectacular natural rock bridge, huge termite mounds, enormous rocks, etc... were fantastic!

Our most excited place was Sunken Bridge. It was so rugged that vehicle nearly overturned. We think the drivers had difficulty with the terrain as often they were faced with tough situations. But we could feel grand after the achievement.

We had never had such a great adventure. We would like to participate in another tour, if we have an opportunity.

Lastly, we wish to thank all of you for giving us a friendly reception and invaluable experiences.

Thank you.

Miho & Tomomi
