

Dargo Range

After setting out on Sunday from Simms, Andy the last to arrive was given the job of Trip report. Deb took notes and it must be a good one, so much so that they are still working on it?!

So now my slight dig has been made, here are some photos of what we got up to.

Firstly we headed out to have a look at Buggery Bend to see if it will be suitable for the Christmas party site. The Suzuki liked it so much that it wanted to stay!

We got some great view, some even were able to pick up the windfarm at Ravenshoe.

The road was is good and then sometimes not so smooth conditions.
